ECO Timeprint Software

ECO301D is a 125 KHz proximity access control terminal incorporated with 3" TFT LCD. The color display and touch screen operation offer a user-friendly and easy menu management. When connected with PC through Ethernet, ECO301D is managed by ETA2 software. The software provides 2 applications, the access control and time attendance. It can also operate on standalone mode, and transfer data by USB flash drive. The latest version of ECO301D includes Wiegand Input port to connect external proximity reader and it can be used as a controller's external reader using Wiegand Out port. As a professional access control device, it allows time zones and groups, holiday managements, linkage, anti-passback function.

Terminal Overview
